SUMMARY

Computer Science Engineering student with practical experience in Python development and full-stack technologies. Proficient in building scalable applications using FastAPI/Flask and REST APIs, with hands-on experience in data processing using Pandas and NumPy. Developed real-world projects such as a fraud detection system and a steganography tool, showcasing strong analytical and problem-solving abilities.

EDUCATION

B.E – Computer Science and Engineering

Saveetha Institute of Medical and Technical Sciences

📅 05/2024 - 05/2028

Class 12 – CBSE

Kids Club CBSE School

📅 01/2023 - 01/2024

Class 10 – CBSE

Kids Club CBSE School

📅 01/2021 - 01/2022 📍 Tiruppūr, India

Foundation Level in Data Science and Applications

Indian Institute of Technology, Madras

📅 2025 - Present 📍 Chennai, India

PROJECTS

MediStore – Online Pharmacy & Inventory System

MediStore – Online Pharmacy & Inventory System

- Built a Next.js + Node.js app for medicine browsing, cart/checkout, and inventory management.
- Added real-time expiry and low-stock alerts, cutting medicine wastage by approximately 30% via automated notifications.
- Implemented role-based admin dashboard with secure JWT authentication.

Fintech Fraud Detection

Fintech Fraud Detection

- Real-time ML-powered system using Streamlit/FastAPI to flag fraudulent transactions, reducing false positives by 35% via Python data mining algorithms
- Built with Next.js UI—proves production-scale backend skills

Line-Following Robot with Speed Control

Line-Following Robot with Speed Control

- Developed a differential-drive robot capable of tracking paths with adaptive speed control

EXPERIENCE

Python Developer

Zaalima Development

📅 01/2026 - 03/2026 📍 remote

- Assisted in building backend systems using Python and REST APIs.
- Supported development and testing of application features.
- Worked with data using Pandas and NumPy.
- Helped in debugging and improving application performance.

SKILLS

Python	C++	C	JAVA
HTML	CSS	JavaScript	
FastAPI	REST APIs	Next.js	
Pandas	Data Mining	Git	
GitHub			

KEY ACHIEVEMENTS

AWARDS

Certificate of Merit – Secured 97th percentile among 3123 students, CSE First Year.

HACKATHON

- Earned 1st place in SATHAK-A-THON 2.0 (Open Innovation), demonstrating strong problem-solving skills, creativity, and efficient implementation. this is from the mohammad sathak engineering college
- Won **1st place** in an Internal Hackathon (Open Innovation), delivering an innovative solution with strong technical execution and teamwork.
- Secured **2nd place** in a competitive hackathon (Problem Statement) at **Sri Eshwar College of Engineering**, by designing and implementing an efficient solution for real-world challenges under strict time constraints.
